Magic Coil Products

Magic Coil Products needed much more than a clever illusion to keep steel processing customers happy. They needed Red Bud's Multi-Blanking Line – a Cut-To-Length Line with slitting capabilities that makes it easy and efficient to produce a custom size part. Now Magic Coil Products can produce tight tolerance blanks faster and more accurately and that makes both Magic Coil and their customers happy. No sleight of hand or magic wand—just smart solutions from Red Bud Industries!
