Seven
 WE'RE UP TO ~~SIX~~ AND COUNTING

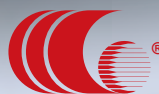

"We bought our first line from Red Bud in 1997. At the time, we felt they offered the best capabilities and the most value for our money. Ultimately, their equipment proved to be a good value while providing superior performance. So, when we needed a second line, we went back to Red Bud. That has been several years ago, and today we are up to our ~~sixth~~ ^{Seventh} installation.

We have come to rely on Red Bud as they have become an integral part of our business. Our customers have come to expect a high quality product, and with our Red Bud's, they are never disappointed."
